Description

Embedded lock with return claw hook, striker included. Made entirely of steel. 22 mm forend with round or square ends.
Six 30 to 60 mm backsets. 8 mm hub.

Application

Lock for interior sliding or folding timber doors that do not require to be locked with a key. Can mount a knob with 6 mm spindle, using the adapter code B00502.15.01.

Mounting

Prepare cutout and mill the panel according to the dimensions shown in the diagram. Secure the lock and striker with four 4x25 mm screws.

NB. *Each box contains a lock, striker and key. Upon request, the set can be supplied without striker (modified version 503).*
