

Mod. 590 round/square ends with key lock, 90 mm centre, 22 mm forend

Description

Embedded lock with spring latch and bolt. 90 mm centre. 22 mm forend with round or square ends. Seven backsets, 25 to 60 mm, and 4 mixed differs. Made entirely of steel, with brass or stainless steel forend, spring latch and bolt. Reversible spring latch. Case with holes for handle installation using through screws for 40-45-50 mm backsets.

Application

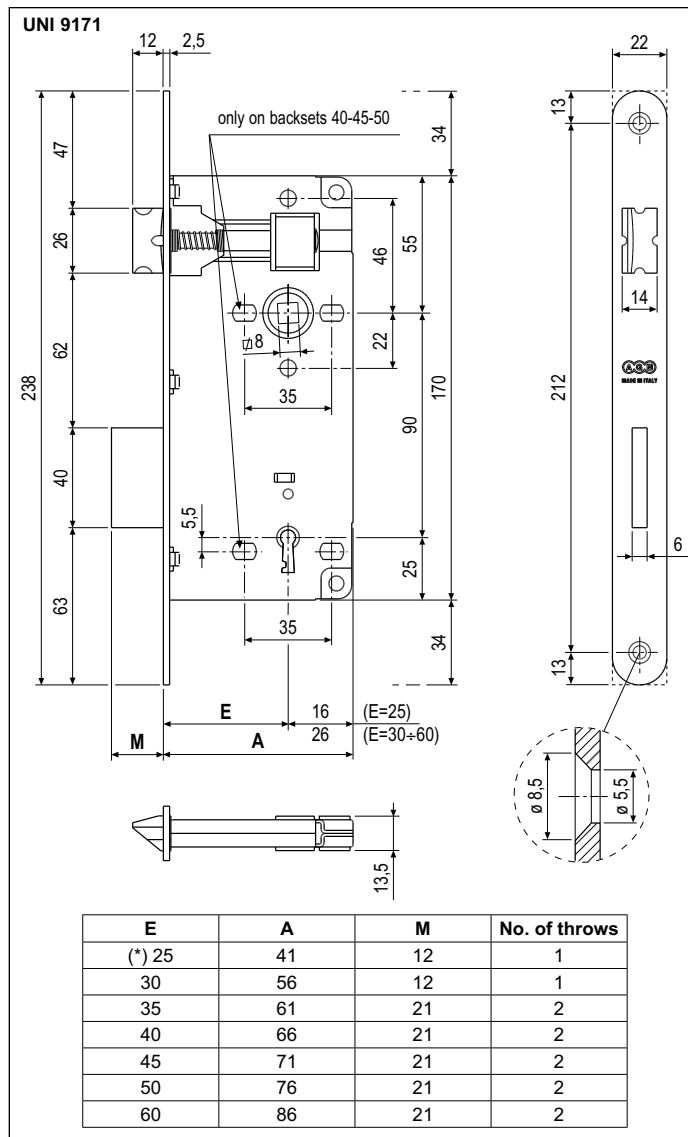

For interior timber doors.

Reversibility and mounting

To reverse the spring latch, push it out of the forend by pushing with a screwdriver against the screw on the back, then rotate it. For 25 mm backset, unscrew the screw, turn the latch and screw it again.

Prepare cutout and mill the panel according to the dimensions shown in the diagram. Secure the lock with two 4,5x25 mm screws.

Note. Each lock comes with a key. Special packagings with only one key differ inside are available on request for industrial applications. The striker, selected according to the construction type, must be ordered separately.

(*) For backset 25, see reversing instructions on page 01.9

Order Specifications

Material	SALES CODE			Key
