

DUETTO - Handle kit, $\varnothing 48$ mm Active-Passive, 38-48 mm door thickness

Description

Embedded handle kit, with a ring handle, 48 mm milling diameter. The expanding spindle allows Fastening the handles on doors from 38 to 48 mm thick. The maximum protrusion from the door surface is 4,5 mm.

Use

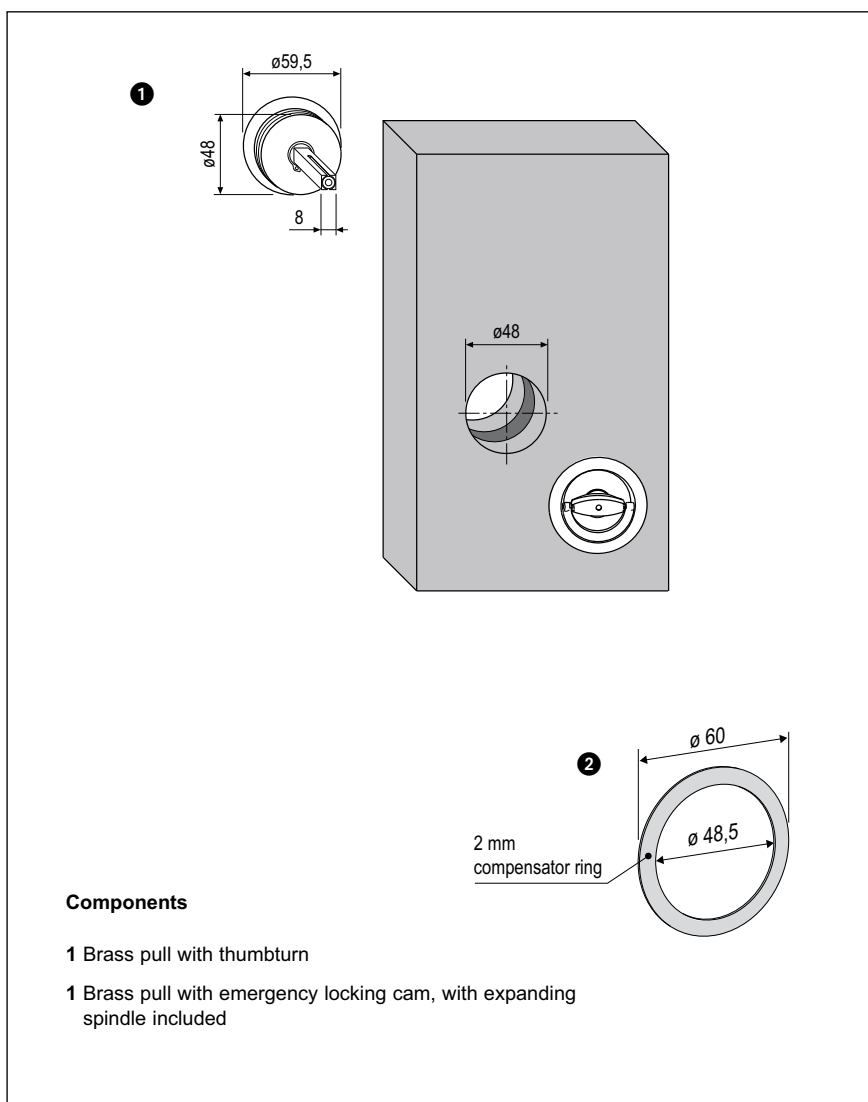

For folding doors installed on bathrooms or similar Uses. The kit is made of an active handle which operates the expanding spindle, and of a passive one (mounted on the other side) which works just for moving the door (idle rotation). The passive

handle is notched, in order to guarantee the emergency function by means of a screw driver or a coin.

The $\varnothing 48$ mm Kit cannot be combined with locks with backsets less than 35 mm.

Fastening

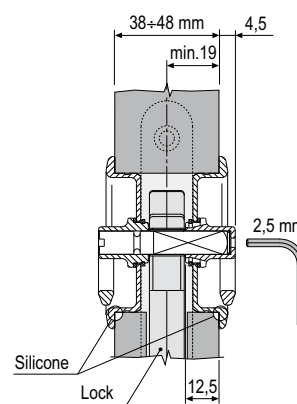

The handles are mounted on the door by means of the expanding spindle inside of the active handle. A 2,5 mm Allen key is required.

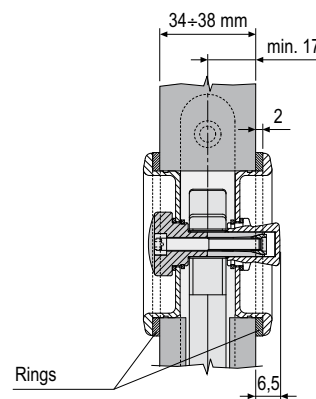

Components

- 1 Brass pull with thumbturn
- 1 Brass pull with emergency locking cam, with expanding spindle included

HANDLES ASSEMBLY

$\varnothing 48$ MM RING FOR 34-38 MM DOOR THICKNESS
