

# Scivola Tre square - Kit M - key only 40-48 mm door thickness

**Description**

Lock kit without hub, with hook actuated by an articulated key that folds into the recess of two square pulls. All the elements have been designed to eliminate any superfluous projections.

**Application**

For concealed sliding or folding timber doors with a thickness of 40 to 48 mm, on rooms where the door is closed and locked from both sides.

**Mounting**

The pulls are secured by embedding, aided by silicone. Follow the assembly instructions provided with the kit. Milling cutters art. Z00005.48.01- 48 mm diameter, are available for milling the pull recesses.

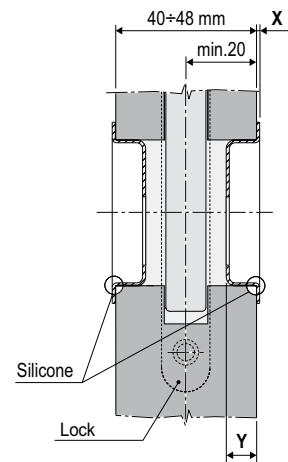

**Note.** All the kit components come in a single package.

**Content of the kit**
