Diva Air

Diva Air is the patented sliding system with exposed aluminium track and soft-closing, for wooden design doors.

Diva Air is featured by minimal style, thanks to hidden sliding trolleys. Patented air dampers are totally concealed into the tracks, in order to stand out the design of the door. The exposed aluminium tracks is available in various finishing solutions.

The air damper is integrated into the track and is equipped with an automatic loading system; the pre-loading operation must be made before the first usage of the door.
